Beurenbachweg 3, 73529 Schwäbisch Gmünd, DE

PROFILE

In July 2022 I completed my Bachelor of Arts degree at Schwäbisch Gmünd University of Applied Sciences in the "Internet of Things - Design of Networked Systems" program.

My motivation is to develop products and services that help people solve their problems. The focus of my motivation is the conception, design and implementation of user-centered products and prototypes. I use design thinking to quickly solve and identify problems, as well as develop innovative ideas that convince and inspire users.

My focus is on UX/UI design, programming and prototyping.
